

The trade association gathers the main walnut growers, processors and exporters in Chile. It was founded in 2009 and its main areas of action are:

- 1** Promote the Chilean walnut among the main destination markets.
- 2** Develop new markets.
- 3** Create and implement processing standards for the industry.
- 4** Market research.

### Global Campaign

is the sector brand that promotes the Chilean Walnut industry throughout the main markets. The campaign is a private-public effort between the Chilean Walnut Commission and ProChile.

### Worldwide quality standards

Our members are committed to comply with the association's standards that allow the exporters to ship the best quality to the five continents.

# CHILEAN WALNUTS

Your counter season partner

CHILENUT

## YOUR COUNTER SEASON PARTNER

Chile is the southern hemisphere's leading walnut exporter and second supplier worldwide. The orchards are concentrated in the central area of the country with a unique mediterranean weather.

The planted area is above 47.400 hectares (season 2019), with a current production of 130.000 tons that will reach 200.000 tons in the next years. The harvest is between March and April, and is processed all year round.

Chile is a long country located in the southern hemisphere. Blessed with the perfect natural conditions to produce a wide range of fruits and agricultural products.

The production in counter season, allows us to offer fresh walnuts in the off-season, to ensure the best possible quality, the best appearance, flavor, yield, size and volume. In the past it was not possible to source walnuts in both hemisphere but now you have the chance.

**Chile is a phytosanitary island with privileged natural conditions for agriculture, due to its natural barriers.**

- To the north, the driest desert in the world.
- To the south, the Antarctica
- To the west, the Pacific Ocean
- To the east, the Andes Mountains

This geography isolates Chile from foreign pests and diseases, with unbeatable food safety conditions.

## Why choose Walnuts from Chile

THE FRESH OPTION OF COUNTER SEASON  
SMOOTH FLAVOR • LIGHTER COLOR  
HIGH QUALITY OF OILS AND OMEGA-3

Stay always fresh!!!

## Why do you need to eat Chilean Walnuts?

Because we are the fresh walnuts for half of the season at the production period of the southern hemisphere

The walnut is a nutritious, pleasant flavor food that has several health benefits.

- High levels of antioxidants.
- Decreases heart risks.
- Prevents diabetes.
- Improves motor and cognitive skills.

Walnuts are **great as a snack**, for cooking, **with desserts**, or **decorating your plate** with a tasteful and **healthy food**.

**Chilean walnuts are ready for you!**
